This is again our very long break first News circular from Selangor Branch after many years of planning and trying to put it into action.. We are requesting our members to join us in our forthcoming activities. This will surely further encourage us, to organize more interesting activities for the benefit of our members. Should you have any suggestion or like to volunteer to assist us; do drop us your email.:

### Committees Greetings!!!

Congratulations to Sabah Branch for being actively getting back into action... We are also making a start to have our impact to technicians, technologists, professional tradesmen, research scientists, academician and others in Selangor by "getting our members involved" as a start . We are encouraging our members to contribute by proposing programs of interest and volunteer in our activities. We are targeting at least two major activities in a year and looking for member's kind support and understanding toward our challenging and enjoyable years to come.  
Await your valuable feedback & support!!!
